

# **COLORADO**

## **Department of Transportation**

1/21/2020

To: All Certifying Entities and Individuals:

This announcement is being made because it has come to the attention of the CDOT that the Flagger Certification cards are not being issued within 24 hours, from some Entities.

Since September 2012, it has been the policy of the CDOT, that Flaggers who pass the test with an 85% or better, are issued their certification card within 24 hours.

With the exception of the Department of Corrections, all Certifying Entities shall issue cards in this timeframe.

Since 8/2019, this policy was adopted for Proctors who are also certifying as Flaggers.

If an Entity fails to issue certification cards in this timeframe, said Entity is subject to audit and possible suspension or revocation.

If you have questions or concerns, Contact:
